

Hello fellow Changians!

It's been about 3 weeks since the Singapore government announced the "circuit breaker" measures to contain the COVID-19 crisis. This has since been extended to 1 June 2020.

All access to Changi Golf Club and use of our facilities have been prohibited with the suspension of all club operations during the "circuit breaker" period.

Our executive and administrative staff have been telecommuting or working from home. With the respective government approval, our golf course and clubhouse maintenance teams have been deployed for essential maintenance of our golf course, facilities and premises to ensure there is no mosquito breeding and water ponding. Our staff continue to be taking and recording their temperatures on a daily basis, protecting themselves and others with safe distancing and use of masks.

Here are some photos taken on 22 April 2020...

View from 8th tee

Despite loss of income from green fees and buggy charges, we have extended rental waiver to our Lighthouse restaurant tenant and waived this quarter's (April to June 2020) Minimum Spending Levy (MSL) for all members. Our staff continue to receive their full salaries during this "circuit breaker" period.

Our Annual General Meeting has been postponed to Sunday 28 June 2020. Please note this will be subject to the prevailing COVID-19 safe distancing and "circuit breaker" measures directed by the Ministry of Health.

Members should have received our Annual Report for 2019 via WhatsApp. These will be resent to you prior to the Annual General Meeting together with the Notice of AGM and other statutory and constitutional documents. If you would like to be included in the Club's WhatsApp group, please send Diana your primary mobile phone details – dianas@changigolfclub.org.sg.

With this "circuit breaker" period, we strongly advise all members to adhere to the stay-at-home directive, out on a mask when you step out of your homes, avoid crowds and practice personal hygiene and safe social distancing at all times. We should anticipate some of these measures and practices to continue even after the "circuit breaker" has been eased or lifted.
